Listing Summary

**Business
Description:****MANUFACTURER OF PRECISION EQUIPT FOR
INDUSTRY WITH PATENTS AND RECURRING
REVENUE**

The Company has been designing and manufacturing pharmaceutical material handling and blending equipment for over 25 years. There is a Long list of legacy customers with significant residual income.

The Company engineers, manufactures, sells, warrants, installs and maintains high precision sophisticated equipment to end users.

Many of the designs are under patents owned by the company and as such are proprietary. The Company has extensive experience in creating applications to fit special process circumstances including portable, stationary and post blending systems. The Company also designs and builds to customer specifications including systems for standard tumble only or high speed mixing discs for both dry and liquid additions. The Company has a seasoned workforce with typical employees in skilled positions having over 10 years with the Company. The Company's controls engineering staff is a leader in manufacturing solutions for process integrations including bin inversions for filling, bin blending and valve removal. The Company is well known and respected for its ability to design and manufacture equipment for individual customers with unique requirements.
